

## **Introduction and Progress Report**

The Adesuwa Osagie Foundation has made significant strides in its mission to support indigent students and provide them with basic education materials. We have also attempted to enroll some secondary school students into vocational schools, although this initiative did not yield the desired results due to a lack of interest and attention from the selected individuals. Though we believe that with the right approach and support, these students can benefit greatly from such opportunities.

## **Visit to Chosen Child Orphanage and Care Centre**

On May 1, 2025, I visited the Chosen Child Orphanage and Care Centre in Lagos to observe their operations and identify areas where Adesuwa Osagie Foundation can provide support. Here are my observations as sent in my earlier report:

- The facilities were basic but clean and well-maintained.
- The children appeared happy but in need of regular meals, education, and recreational activities.
- The staff members were dedicated and caring, providing emotional support and guidance to the children.
- The orphanage requires additional resources, including educational materials, food, recreational facilities, clothing, and bedding.

## **Recommendations**

- Organize donations for essential items, such as clothing, bedding, and educational materials.
- Enroll some of the children in a vocational center and ensure the orphanage coordinators oversee their participation.
- Plan a visit to the orphanage before the end of the year to support the children and put smiles on their faces.

## **Conclusion**

The Adesuwa Osagie Foundation remains committed to making a positive impact in the lives of indigent children. As the festive season approaches, we can provide them with the support and resources they need. We can do a follow up on the recommendations and plan a visit to the orphanage before the end of the year.
